

PHONICS

Practice for struggling readers

ACTIVITIES FOR OLDER STUDENTS-PART I

These phonics worksheets for older students (3rd, 4th & 5th graders) can be used as reading intervention practice. Use with struggling readers in upper elementary as a reading intervention or remediation in 2nd grade and above. This product can be used throughout the school year, during tutoring, home school, or over the summer to reinforce students' phonics skills to read well.

What's included?

Inside this product, you will find:

- ❁ 23 Phonic Skills posters (available in B&W and color)
- ❁ 48 Practice Pages that reinforce each of the phonics lessons taught.
- ❁ 23 Phonics worksheets - Can be graded
- ❁ Answer keys

11. Consonant Digraphs (CH, SH, PH)
12. Consonant Diagraphs (TH, WH, NG, GH)
13. Silent Consonants

See the reviews

★★★★★ Extremely satisfied

I used this for a student I was tutoring and it was great. It really helped her and was engaging. This is a great intervention tool and I will use it again.

★★★★★ Extremely satisfied

This resource is so great! I love that it comes with poster to show the concept and then practice. Its been great for my older students who still need those phonics skills but isn't "baby-ish" in their words.

★★★★★ Extremely satisfied

I was after a resource to focus on consolidating and revising phonics with my older students (years 3 and 4) who are still struggling with some basic concepts and they absolutely love using this booklet! It has been created in such a way that children don't realise they are working on quite basic concepts despite their age. Very well done!

★★★★★ Extremely satisfied

I've been using these with my 4th and 5th grade reading intervention students. The practice sheets are great and my students are definitely benefiting from revisiting the "rules" and practicing. I've been printing mini versions of the anchor charts and putting them on a binder ring so my intervention kids can have an additional support resource when they are in their main classrooms.

★★★★★ Extremely satisfied

This has been an amazing resource with some of my lower readers. They have enjoyed the visuals and practice in improving with their decoding and reading fluency.

I teach middle school special education, and this was the perfect resource for additional phonics instruction to supplement the LMB program provided by the district.
